

Fabian is an Industry Solutions Specialist of the Corporate & Commercial Solutions team. He works with corporate clients in the Technology and Retail segments to engage in strategic dialogue across and obtain an understanding of key treasury requirements, concerns and plans with a view to develop solutions to meet their Treasury needs.

Areas of expertise include Working Capital, Treasury Management, In-House Banks, Shared Service Centers, business process re-engineering, payables and receivables migrations strategies, account structuring and rationalization.

Fabian has over 18 years of experience in the financial services industry across Australia and New Zealand, Asia and North America across project management, product management, sales leadership and consulting.

Prior to joining J.P. Morgan Singapore in 2010, Fabian was with Australia and New Zealand Banking Group (ANZ) for over 14 years holding various roles that culminated in the development of Cash Advisory within the Treasury Services LOB at ANZ. Cash Advisory generated over \$2 Million AUD in fees per annum when Fabian departed to join J.P. Morgan.

Fabian holds an MBA from Deakin University of Australia and has presented at local AFP events and at the New York Cash Exchange in 2013 and 2014.
